

Setting JBoss repo using setting.xml of user

```
<profiles>
  <profile>
    <id>jboss</id>
    <repositories>
      <repository>
        <id>redhat-ga</id>
        <url>https://maven.repository.redhat.com/ga/</url>
      </repository>
    </repositories>
  </profile>
</profiles>
<activeProfiles>
  <activeProfile>jboss</activeProfile>
</activeProfiles>
```
