Profile Integration Test

```java
package configuration.basic;

import org.junit.jupiter.api.Test;
import org.springframework.beans.factory.annotation.Autowired;
import org.springframework.boot.test.context.SpringBootTest;
import org.springframework.test.context.ActiveProfiles;

import configuration.basic.config.EnvironmentConfig;

@SpringBootTest
@ActiveProfiles("test2")
class ProfilesIntegrationTest {

    @Autowired
    private EnvironmentConfig environmentConfig;

    @Test
    void test() {
        environmentConfig.someMethod();
    }

}
```
