Maven Release Plugin

We can configure the plugin to have same version for module and submodule

```
<plugin>
      <groupId>org.apache.maven.plugins</groupId>
      <artifactId>maven-release-plugin</artifactId>
      <configuration>
            <goals>install</goals> // we are saying click on install phase it will run
the plugin
            <autoVersionSubmodules>true</autoVersionSubmodules>
      </configuration>
</plugin>
```
